## Summary

Mobile Engineer with 5+ years of experience developing high-performance, scalable apps with Flutter and Dart across Android, iOS, and the web. Adept at building clean UIs, architecting cross-platform solutions, and optimising app performance. Passionate about clean code, team collaboration, and continuous learning.

## Skills

- **Technical:** Flutter, Swift & Dart, GitLab CI, GitHub Actions, RESTful APIs, GraphQL, State Management (Provider, GetX, Bloc), Unit & Widget Testing, Firebase, Cursor IDE, Firebase Analytics, Docker, Python, Shell Scripting
- **Soft Skills:** Documentation, Communication, Teamwork & Collaboration, Problem-Solving & Critical Thinking

## Experience

**Senior Mobile Developer | Dark Bears | Jaipur (Nov 2025 – Present)**

- Worked on an **AI-driven sales training platform** that uses **LLMs with Retrieval-Augmented Generation (RAG)** to simulate realistic customer objections and evaluate salesperson responses.
- Implemented **real-time conversational flow** where user inputs are converted to embeddings, matched via **vector search**, enriched with contextual data, and used to generate context-aware AI responses.
- Enabled **voice-based AI interactions** by processing streamed LLM outputs and generating natural speech using **ElevenLabs Text-to-Speech**, supporting low-latency, continuous simulations.

**Senior Software Engineer | Practically | Hyderabad (May 2023 – Oct 2025)**

- Built and scaled a **cross-platform education app** (Android, iOS, Web, Windows, IFP).
- Improved **app launch speed by 35%** and reduced **crash rate by 50%** through performance tuning.
- Developed **real-time session sync** and **interactive whiteboard**, reducing setup time by 40%.
- Implemented **Canvas JSON import/export**, reducing manual lesson creation effort.
- Designed scalable architecture using **BLoC** and deep linking with **auto_route**.
- Set up **CI/CD pipelines (GitHub Actions)**, cutting release cycles from 5 days to 2 days.
- Integrated **Swift-based iOS share extension** and managed App Store certificates & signing.

**Freelance Flutter Developer | Blazon Labs | Remote (Oct 2022 – Mar 2023)**

- Developed a **real-time vehicle tracking app** with live location updates every 2 seconds.
- Integrated **Google Maps APIs** (markers, polylines, live tracking).
- Designed optimised filtering logic for large vehicle datasets using **BLoC architecture**.
- Improved UI performance and map rendering on low-end devices.

**Senior Mobile Application Developer | Spider Web Technologies | Remote (Dec 2021 – Aug 2022)**

- Built **Playmi**, a music streaming app with **50K+ users** and offline caching support.
- Developed a **medical consultation app** handling 1,000+ monthly bookings.
- Contributed to a **university mobile app** for attendance and academic updates.

**Senior Flutter Developer | A2 Technosoft | Jaipur (Jun 2021 – Dec 2021)**

- Built a B2B/B2C e-commerce app with **payments**, order tracking, and returns.
- Integrated **Razorpay**, push notifications, and promo flows, reducing cart abandonment.

**Flutter Developer | BlueAccel Softwares | Remote (Jun 2020 – Mar 2021)**

- Developed a productivity app using Flutter, Firebase, and MobX, published to the Play Store with over **5K** installs.

- Implemented offline sync and theme support for improved usability.
- Used Firebase Authentication with OTP and social login integrations.

# Education

- **Master of Computer Application (MCA)** | JECRC University, Jaipur (May 2021 – May 2023)
- **Bachelor of Computer Application (BCA)** | JECRC University, Jaipur (May 2016 – May 2019)
